Alliance for Clean Energy New York Gains 13 New Members in One Year

Member companies see increasing value in joining leading industry trade group

ALBANY, Dec. 21, 2022 — In a sure sign that the clean energy industry continues to grow in the Empire State, 13 companies became members of the Alliance for Clean Energy New York ([ACE NY](https://www.aceny.org)) in 2022. ACE NY now has 113 dues-paying members.

ACE NY is a broad coalition of industry voices, advocacy organizations, and environmental groups dedicated to promoting clean energy, energy efficiency, a healthy environment, and a strong economy for the Empire State, and is New York's premier advocate for the rapid adoption of onshore and offshore renewable energy, energy efficiency and clean transportation technologies.

The 13 new dues-paying members represent increased participation by stakeholders from each foundational pillar of the clean energy trade and are a nearly 15% growth in new members from 2021.

"The Alliance for Clean Energy New York has been a major driver of New York state's stellar clean energy growth," said Kyle Rabin, the director of membership services at ACE NY. "ACE NY is growing right alongside the booming industry it leads. Now with the Climate Action Plan approved, it's full steam ahead to reach the state's nation-leading clean energy goals."

The new members are:

- [Bolton-St. Johns](#)
- [bp pulse](#)
- [Cordelio Power](#)
- [DBC \(Deborah Bradley Construction\)](#)
- [Dynamic Energy](#)
- [energyRe](#)
- [Highland Fleets](#)
- [Innergex](#)
- [MN8 Energy](#)
- [Plug Power](#)
- [Reed Smith LLP](#)
- [RIC Energy](#)
- [SWEB Development](#)

Additionally, the following companies became members of the Steering Committee or Supporter Tier of the New York Offshore Wind Alliance (NYOWA), an initiative of ACE NY with a focus on the burgeoning offshore wind industry in New York state.

- [Bluepoint Wind](#)
- [Invenergy](#)
- [National Grid Ventures](#)
- [Vineyard Offshore](#)

“This past year saw a diversification and strengthening of the US offshore wind sector, with several new market entrants gaining a foothold with the federal government's record-setting lease sale of offshore wind development areas in the New York Bight,” said Fred Zalcman, the director of NYOWA. “We are pleased to welcome several new developer-leaseholders to NYOWA, and to the New York offshore wind marketplace. These companies add to our incomparable expertise and experience in all facets of renewable project development - from engaging local communities, to fostering a just transition, to activating a domestic supply chain.”

“The growth illustrates the importance of the New York market for the clean energy industry and the strength of the nation-leading climate goals of New York to help drive innovation and family-sustaining jobs,” Rabin said.

Membership in ACE NY is open to companies and organizations that work in and support the clean energy sector, including renewable electricity, energy efficiency, and clean transportation. For more information on membership, visit the [ACE NY Membership page](#) or [contact Kyle Rabin](#).
